

# MAINTENANCE REQUIREMENTS

## MOVING & DECORATIVE PARTS

Rolling Systems	Pivot & Hinge Systems	Folding Systems	Chrome Plated Parts
Regularly wash out the bottom track and lubricate the wheels with a high quality silicone lubricant.	Check regularly for smooth operation. Lubricate with a high quality silicone lubricant when necessary. Check all gaskets are securely in place to prevent jams. <b>NEVER FORCE the door open and closed.</b>	Check regularly for smooth folding operation. Lubricate with a high quality silicone lubricant when necessary. Lubricate wheels at least annually. Keep the bottom track clean. <b>NEVER FORCE the door open and closed.</b>	All parts should be cleaned regularly with a soft cloth and warm soapy water. Ensure that the parts are thoroughly dried to avoid staining. <b>DO NOT USE ABRASIVE cleaning methods at all.</b>

## CLEANING & MAINTENANCE OF GLASS

### Maintaining High Shine & Perfect Finish of Toughened Safety Glass

- Squeegee and dry the glass thoroughly after **EVERY SHOWER USE**.
- Do not allow water to evaporate off the glass naturally as this **COULD** lead to calcium build-up in a very short period of time.
- Use a degreasing cleaner regularly, such as:  
Diluted lemon juice, diluted vinegar solution (4 :1) or similar application.
- Commercial applications are available to protect the surface of the glass and should be applied to new glass for the best results.
- We do not recommend the use of commercial/domestic detergents or cleaning products.
- PH levels vary from home to home and from person to person. Hence calcium build-up will vary in degree of intensity.
- For the very best possible finish:  
Dry the glass thoroughly after **EVERY SHOWER USE** and allow the shower area to air by leaving the door slightly ajar.

## PRODUCT GUARANTEE

**We guarantee our workmanship and quality of materials used, having regard to fair wear and tear.**

**Furthermore, this guarantee is subject to proper and acceptable methods of cleaning and maintenance being performed:**

- Against failure of all mechanical parts and the general construction thereof, for a period of one (1) year from the date of invoice.
- Against any faulty installation for a period of one (1) year from date of invoice.
- In the event of a "supply only" product purchase from an official agent, for a period of six (6) months.
